

# LiteSpeed® Washdown High Performance Doors

From the soft bottom edge and ultra tight seal, to the simple, low-maintenance design platform, the LiteSpeed Washdown has become the new standard for safe, clean, reliable performance for clean rooms.

## An edge on safety

No hidden metal or plastic support. No buried electrical wiring. 100% fabric for a softer, safer cushion. And a higher degree of protection for product, personnel and equipment.

## TRUE Auto Re-feed™

For automatic re-feeds, on the fly, with no human interaction. Impacts won't impact production.

## Fewer moving parts

Less maintenance keeps downtime to a minimum. Less really is more.

## Strong, silent type

Powerful 1 HP motor and variable frequency drive system combine for class-leading speed and super-quiet performance.

## The speed advantage starts with installation

Comes fully pre-wired and tested from the factory. Reduces electrical installation by up to two hours. We offer wireless interlocking for multiple doors.

## Smaller footprint

Compact stainless steel side frames for a cleaner look. Ideal for installation in tighter spaces.

## Tough PVC vinyl curtain

Completely heat sealed. Complies with FDA and GMP guidelines.

## Reversing slack sensor

Reverses the door's travel when an obstruction is sensed.

## Smart, Connected Capabilities

Rite-Hite provides smart, connected capabilities as part of the Rite-Hite Extended Warranty. Facilities gain visibility into their doors productivity and maintenance, helping to increase safety through the Rite-Hite Digital Platform.

Graphic User Interface (GUI)

Optional LED Countdown

Soft Bottom Edge

# Specifications

## Speed

- » Peak speed up to 65" (1.65 m/sec) with standard variable-frequency drive
- » Closing speed 30" (0.76 m/sec)

## Size

- » **Minimum:** 3'0" x 3'0" (914 mm x 914 mm)
- » **Maximum:** 12'0" x 12'0" (3657 mm x 3657 mm)

## Curtain Material

- » 27 oz. vinyl, Standard Color: Blue – other colors Gray, White, & Red available upon request
- » 30 oz. urethane, Optional – available colors in Blue & Carbon

## Side Frames

- » Stainless steel – 3 3/4" wide x 2 1/8" projection (95 mm x 53 mm)

## Drive System

1 HP (0.75 kW) motor, washdown rated, variable-frequency drive, torque absolute encoder

## Electrical Requirements

- » **Single-phase:** 220V-240V
- » **Three-phase:** 208V, 230V, 400V, 460V, 575V

## Graphic User Interface (GUI)

Industry's only 7" (178 mm) LCD touch screen interface that provides increased safety by allowing an individual to simply access the control box settings without wearing the necessary PPE often required for accessing a live electrical panel.

## Control box

- » i-COMM™ 3 Digital Controller, variable frequency drive.
- » Pre-wired and factory tested.
- » Standard fiberglass NEMA 4X, optional stainless steel NEMA 4X.

## Curtain Retention

- » Standard pressure retention up to 0.2 in – H<sub>2</sub>O (50 pascals).
- » Includes TRUE Auto Re-feed system in case of accidental impacts to curtain.

## Safety Features

Soft Breakaway Technology thru-beam photo eye at 18" (457 mm) off the floor, reversing sensor.

Optional – Virtual Vision™, motion and presence sensors.

## Limited warranty

Five (5) Year for motor, brake and gearbox.  
Two (2) Year on all mechanical and electrical parts.  
One (1) Year labor.

## Rite-Hite extended warranty

Seven (7) Year drive system.  
Three (3) Year fabric/panel, electrical & mechanical.  
Two (2) Year labor.
